

HYGIENIC, SMALL TRANSFER BELTING: INTRALOX LUGDRIVE S8240

Intralox® LugDrive™ Series 8240 is a hygienic, solid thermoplastic belt built for small transfers. Able to wrap around transfer rollers as small as 1 in (25 mm) in diameter, LugDrive S8240 small transfer belting optimizes line layouts while preserving product quality and orientation—without compromising food safety. Its lug-driven design ensures tracking on the belt's underside, eliminating the need for side containment and providing a hygienic solution with minimal harborage points.

Features and Benefits

Brings LugDrive belting's operational reliability to small transfers

Compatible with nose rollers as small as 1 inch (25 mm) in diameter

Lug design ensures reliable tracking and eliminates risk of slippage

Eliminates harborage points and simplifies sanitation

Reduces transfer and drop distances, protecting product quality and orientation

Sink-free, matte surface enables optimal performance in scraping applications
